The Power of Deciding

Few people are more qualified to judge a skin care’s effectiveness than Linda Loveless of Overland Park, Kansas. The former designer, dressmaker, image consultant — and Mrs. Kansas America — discovered Arbonne while preparing for a beauty pageant. Busy with multiple careers, and missing quality time with family, Linda knew there was something special about these products. Soon she discovered just how special — and began changing lives for generations!

The journey, not the crown, is the real reward. I learned that in a big way when I decided to enter a beauty pageant at age 40. It’s what happens along the way... the growth and the personal development. Nobody can take that away from you. After winning the Mrs. Kansas America Pageant in 1999 at age 45, I decided to focus on my Arbonne business. The mind is a powerful thing when you decide to get laser-beam focused on your intentions.

December of 1996, I made the best decision of my life — to become an Arbonne Consultant. I was working at home as a Designer, Dressmaker and Image Consultant, and marketing another skin care and cosmetic line. Feeling isolated in the basement and burning the midnight oil, with the pressure of meeting deadlines, I was losing time with my family. I knew I wanted more for my life and for my family. My decision to enter the Mrs. Kansas Pageant opened up many doors, and one of those doors was Arbonne. While preparing for the pageant, my Sponsor, Kim Hoffman-Hutchison, introduced me to Arbonne. I told her I was not interested; I was already marketing another skin care line. She said, “I

value your opinion, and I would love to know what you think.” So I took the sample home and used it that night. I saw and felt a difference in my skin overnight. I called her the next day to ask her why Arbonne was so different than what I was currently using. The answer to my question changed my life.

“Show up to go up” is what I tell my team. I showed up to everything. I was hungry for information and relationships, and what I saw through the people I met was hope. What I learned from the pageant was, “How dare I allow a judge to decide whether or not I’m good enough.” So my journey with Arbonne began... I was a professional meeting-goer for a year and a half, slowly building my belief, before I finally promoted to DM.

Through showing up, I realized that I was in the people-building business and Arbonne was the vehicle to help me help others step into their full potential. I just needed to open up the “gift” I had been given and share it. So I decided to open my mouth. Your mouth is your office, so keep it open all the time. That’s when I began to see the true heart and culture of Arbonne. I experienced lives changing, families growing together in a healthy positive environment because they said yes to this gift. I understood my purpose: I am a People Builder, a Hope Caster, and my job is to leave people better than I found them.

One of the turning points in my business came while I was listening to a cassette tape on a road trip — my university on wheels. On the tape was Arbonne founder Petter Mørck, and what he said caused me to pull over to the side of the road for a few minutes, because I couldn’t see to drive with tears in my eyes. “The decision you made to do this business will affect 10 generations that you don’t even know yet.” My first thought was, “Wow! Who thinks like this? What a visionary!” I was just trying to survive month to month, not thinking about whom I was affecting or would be affecting in the future. So at that moment, my mindset shifted. I decided to take responsibility for my business and my life. We have all heard the saying, “To whom much is given, much is expected.” I decided to take responsibility to leave a legacy for generations to come both in my own family and in our Arbonne family.

I promoted to RVP in May 2002, and then to NVP in February 2004. What you need to know is that I played in the business from 1996 to 1999, got serious and became an AM after completing the beauty pageant, and was asked to speak at MTS 2002 (Management Training Conference, now GTC) in Long Beach as top-three in sponsoring that year. While onstage training, I decided that I was going home to build to a Region. We completed RVP two months later. The power of deciding!

I sponsored ENVP Christy Dreiling just before I left for Long Beach and I remember training her on the phone while I was walking on the beach. The next year, she was onstage in the Top 13 Parade of Champions and driving her beautiful white Mercedes. When I met Christy at a photo shoot for my son, we bartered products for the shoot. Three months later she called to barter again. This time I said I would show her how to earn the products by inviting a few guests over. She had no intention of doing the business when I shared Arbonne with her, but at her first get-together she signed up six people to join the business! That meant she had a decision to make that night. Thank you, Christy, for saying yes! You are changing lives all over the world. It is a blessing to be on this journey with you.

From that group gathering also came the incredible ENVP Valerie Edwards. Valerie, you are an amazing leader and trainer. You lead by example of consistently building your personal business. It has been fun to watch you and Christy grow on this journey together. By the way, that was my first group Presentation I did, and I was an EAM. I started building my business through one-on-ones, because that was my comfort zone. I had to get uncomfortable to really grow my business.

I am proud to say I am a lifer with Arbonne, and as our former President Rita Davenport, who poured love, hope and belief into us, would say, “I hate to brag but I do Arbonne.” Thank you, Rita! To the new Consultants and seasoned Consultants: When Arbonne gets into you... you will be that confident. Decide to
